

About Material Advantage™ Congressional Visits Day

The Material Advantage™ Congressional Visits Day (CVD) is a two-day annual event that brings students and educators to Washington to raise visibility and support for materials science, engineering, and manufacturing.

Objective

To educate Congress, Congressional staff, Key Administration officials, and other decision-makers about the long-term importance of research in materials science, engineering, and manufacturing.

Organizers

The Material Advantage™ student program offers membership to undergraduate and graduate students with access to four different materials science and engineering professional societies. The four partner societies that make up the Material Advantage™ program include: The American Ceramic Society (ACerS), The Association for Iron & Steel Technology (AIST), ASM International®, and The Minerals, Metals & Materials Society (TMS).
